SUMMARY

I'm a highly motivated and detail-oriented Software Engineering graduate with a passion for developing innovative solutions to complex problems. I possess a solid foundation in programming languages, data structures, software development methodologies, and project management principles. I'm eager to leverage my academic knowledge and practical experience to contribute to cutting-edge projects and advance my career in the field of Software Engineering.

EDUCATION

Bachelor of Science - Computer Science, Software Engineering   Seattle, WA
Western Governors University   Jan 2022 - Mar 2024

TECHNICAL SKILLS

- Java
- HTML/CSS/JS
- Spring Boot
- Angular
- AWS

PROJECTS

Customizable Timers website | customtimers.net (code)
- Full-stack website that makes it easy for users to create multiple countdown and stopwatch timers and save them for later retrieval
- Built using Angular, Spring DATA REST and MySQL. Deployed with AWS

Student Progress Tracker App | github.com/AndrewJCate/Student-Progress-Tracker
- An Android application that lets users track dates of school terms, courses and assessments. Provides reminders and a notes section that can be shared
- Built with Java (Android Studio)

J.P. Morgan Software Engineering Virtual Experience on Forage
- Fixed broken files in the repository to make web application output correctly
- Used JPMorgan Chase's open-source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor

JPMorgan Chase & Co. Agile Job Simulation on Forage
- Drafted eight user stories using Trello and prioritized them by estimating the relative level of effort required
- Ran the Scrum team's daily standup to effectively plan the day and energize the team members
- Conducted a sprint review to gather feedback on the Scrum's work and a sprint retrospective to align on opportunities for improvement in future sprints
